SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Oroville Dam Auxiliary Spillway Incident

On 04/29/17 at 1344 hours the Department of Water Resources (DWR) advised the California State Warning Center (CSWC) that they were decreasing the flow to manage Lake Oroville's water surface elevation and to safely close the Flood Control Spillway.

- The Hyatt Powerplant outflow was increased from 0 cfs to 8,000 cfs.
- The Oroville Dam Flood Control Spillway flow will eventually be curtailed from 35,000 cfs to 0 cfs.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 05/07/17 at 0600 hours](#):

- Inflow: [18,304](#) cfs.
- Outflow: [7,921](#) cfs.
- The current lake elevation is [844.77](#) feet.

Mission Tasking

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-SOC-34379: Caltrans engineer to visually inspect and conduct Impact-Echo Testing on the gated concrete spillway floor – On Scene.
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – On Scene.

SITUATION SUMMARY

Cal OES COASTAL REGION

Bay Area Rapid Transit (BART) Track Closures

BART plans to close the tracks between Fruitvale and Lake Merritt Stations to perform vital repairs on select weekends through July. The next closure is planned to occur this weekend: 05/06/17-05/07/17.

- During the closures there will be no train service between Fruitvale and Lake Merritt and the Lake Merritt Station will be closed.
- A free bus bridge will operate between Fruitvale and 19th St. Stations in Oakland to shuttle riders around the closure.
- Riders on the Fremont, Dublin and Oakland Airport lines will be impacted adding 20 to 40 minutes to travel times

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

Per the Cal OES Coastal Duty Officer (CDO), as of 04/27/17, Hwy 1 from the south is closed at Ragged Point and is open at specific intervals to local traffic only. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Solano County: Sacramento River at Rio Vista

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Placer County:

- Truckee River at Truckee is forecast to be above flood stage at 5.0 feet the morning of 05/07/17.
 - Potential Impacts: Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike patch between the River Ranch at Alpine Meadows Road to Tahoe City flooded up to a foot deep. Minor flooding of basements and yards of some low-lying homes along the river. Deep Creek Campground has limited access due to flooding. Minor flooding begins at Silver Creek Campground. About 2850 cfs. USGS estimates this much flow has about a 1 in 5 chance of being exceeded any year.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Plumas County: Middle Fork Feather River at Portola
- Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: Merced River at Stevinson

No 911 Outages	911 Outage	No 911 Outages

Service Interruptions:

Landline/911 Outage, Kern & Inyo Counties

On 05/06/17 at 1653 hours the Kern County Fire Department advised the California State Warning Center (CSWC) of a landline/911 outage affecting portions of Kern County.

- The outage began at approximately 1615 hours.
- It is estimated that less than 1,000 people are being affected by the outage.
- Frontier Communications is aware of the situation and is working on the problem.
- It is unknown what caused the outage and it is unknown what time service will be restored.
- Kern County Sheriff's Office is reporting that their PSAP is working and also receiving Ridgecrest PD's rerouted calls.
- [Inyo County Sheriff's Office 9-1-1 outage has been resolved.](#)
- Cal OES 9-1-1 Branch will provide updates as they become available.

Remote/Community Isolations:

- None reported

WEATHER OF CONCERN

Weather of Concern

- A cutoff low pressure system will move over the region through Tuesday bringing an unseasonably cool and showery weather pattern to the region. A cool and showery air mass developing today will persist through the weekend and into early next week. Light to occasionally moderate rain is expected with this system. Rainfall amounts will range from one tenth to one quarter of inch of rainfall expected for coastal and valley locations north of Point Conception to one-quarter to one-half inch for coastal and valley area south of Point Conception. The highest rainfall amounts will occur in the mountains with between one-half and one and one-quarter inches of precipitation expected. Snow levels lowering 4000 to 5000 feet late tonight into Sunday morning could cause hazardous driving conditions across mountain roadways including Highways 33 and 138 and Interstate 5. Isolated thunderstorms with brief heavy downpours, gusty and erratic winds and small hail are possible tonight through Sunday night.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

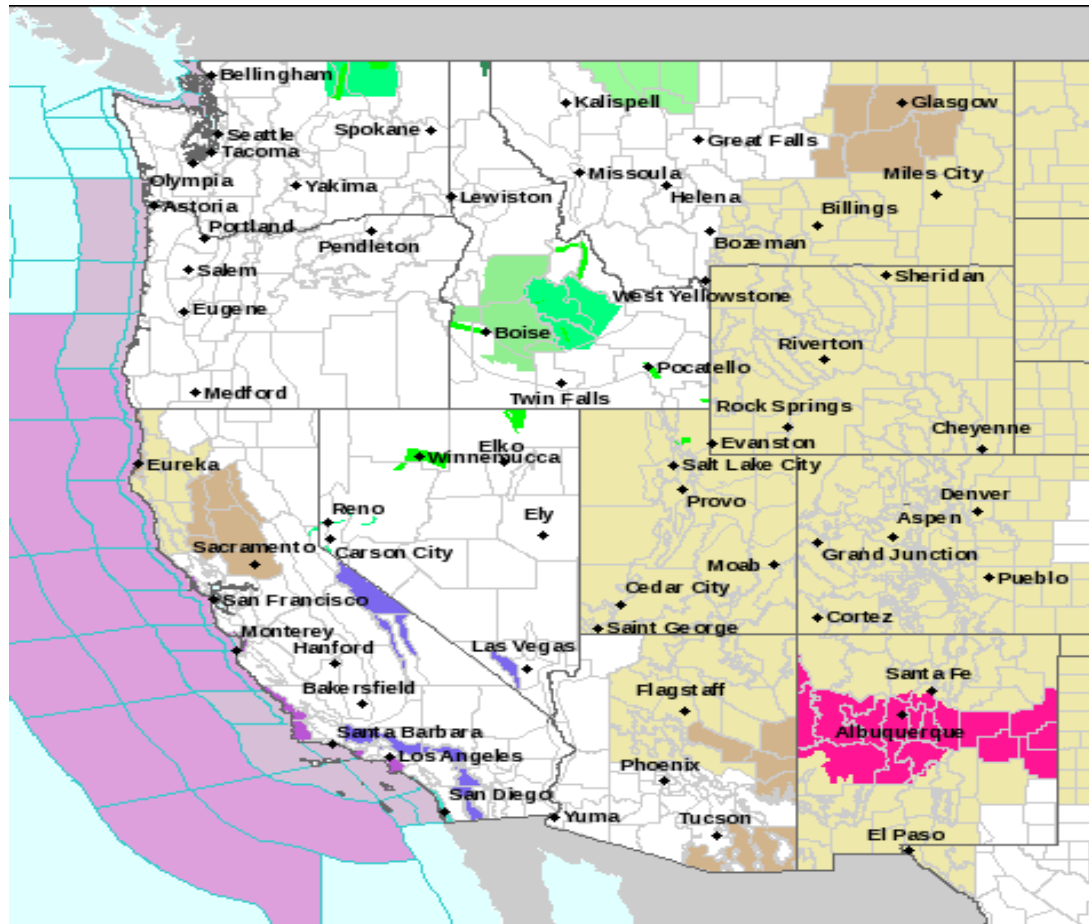

NORTHERN CALIFORNIA

The weather will be cooler with a chance of mountain showers and thunderstorms this weekend. Gusty north winds today and will be warm again early next week. Model analysis and water vapor imagery showed an upper level cut off low pressure system moving southward during the early morning hours over California. Lift along the associated trough edge was initiating convection over Nevada, and easterly flow aloft over northern California was bringing light showers into the Sierra and portions of the lower San Joaquin valley overnight.

SOUTHERN CALIFORNIA

The low will bring precipitation and possible thunderstorms into Monday with near normal temperatures. Precipitation may occur on Tuesday in portions of Los Angeles County and the mountains. A high will build in by midweek for an overnight marine layer into Friday, otherwise fair with above normal temperatures. Another low should approach on Saturday.

Cal OES MISSIONS

Cal OES Missions

- **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
